

# Product Overview

FOR BROKERS

## All-in-one benefits administration platform

- ✔ Easily import and manage all employees, groups, plans, templates, and more in a single system
- ✔ Create a custom experience for your groups, with their own homepage and plentiful HR features
- ✔ Keep employee and enrollment data in sync with existing carriers & payroll systems

## Key differences

### Technology that doesn't break the bank

We believe you should be able to give your clients best-in-class enrollment and HR technology for free.

### Control your data

A third party should never get between you and your groups. Be in control of your data, branding, and most importantly, your customer service.

### Stay in sync with integrations

Enjoy seamless integrations with your favorite carriers, payroll providers, and TPAs. Spend less time on administrative work and more time growing your business.

## Our approach to support you

### Training

Each of our customers receive comprehensive and personalized training to make sure they know Employee Navigator like the back of their hand.

### Ongoing support

Give us a call and we promise someone will actually answer. That's right - no waiting and no automated phone obstacle course! We never leave your side. Our support staff is filled with friendly, knowledgeable customer service advocates.

### Comprehensive resources

No matter how you learn, there are resources available to you - from our online support site, to videos, webinars or our interactive guide.
