---

*Employee Navigator Integration*

AAB Payroll is pleased to offer Employee Navigator integration.

The integration type is two-way, meaning changes made in one platform are updated in the other.

Only *Company Admins* flagged as *Employee Navigator Admins* can access the *Integrations Sync Dashboard*.

Contact AAB Payroll to enable the Employee Navigator feature and delegate *Employee Navigator Admins* for your company.

## COMPANY > INTEGRATIONS

- The *Integration Sync Dashboard* will show only if your company have the *Employee Navigator* feature turned on.
- The list details missing information from employee records. To make edits, navigate to the appropriate page in the *Employee* menu.
- Every employee using the *Employee Navigator* integration needs to have a valid Social Security Number in AAB Payroll.
- Use the Download Reports drop down button if you need to download a report from this screen.

### INTEGRATION SYNC DASHBOARD

The listed employees are incompatible and unable to be synced to Employee Navigator until you update the information they are missing. This happens because Dominion tries to help you onboard employees as easy as possible, but this also don't require you to add all of the information that might be required in other systems when you first add your employees. In order to integrate with partners like Employee Navigator, we must ensure we don't sync bad data to your Employee Navigator.

Employee	Missing Fields
Sarai Sliffe	Hire Date, Pay Effective Date
Bettyann Grigaliunas	Pay Effective Date
Susann Stenberg	Pay Effective Date
Ruben Bramon	Pay Effective Date
Keith Fenney	Pay Effective Date
Janita Pettaway	Pay Effective Date
Robena Salama	Pay Effective Date
Etsuko Avino	Pay Effective Date
Barbara Auxier	Pay Effective Date
Job Gruden	Compensation Basis, Social Security Number, Pay Effective Date
